

# THE PEOPLE'S VISION: REBUILD AMERICA

## OVERVIEW:

by Barbara Furbush

**This participatory art installation urges people to reflect on and share their vision for rebuilding America. In a time of polarization and uncertainty, this piece acts as a collective mirror - inviting the public to see themselves, hear others and document a vision of unity, justice, and hope.**

**In a maze like structure consisting of 4 feet wide acrylic mirrored panels, with prompts heading on each panel (words above), each person is asked to write on *Post-it notes*, their reflections on each topic.**

## ARTIST BIO:

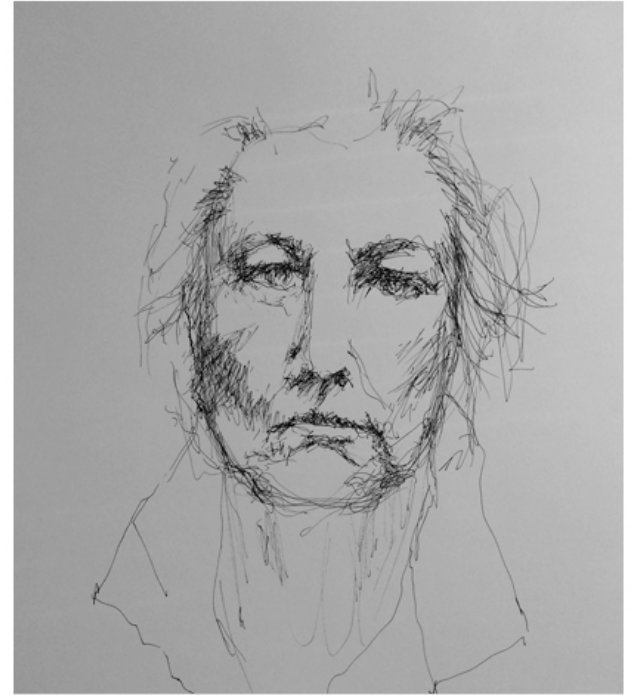

Barbara Furbush is a multidisciplinary artist known for creating emotionally resonant, community centered work.

Past projects include participatory pieces that invite reflection on self and others. Works such as WHO AM I and WORDS OF WISDOM and THE BRIDGE encourage thoughtful exploration.

These pieces have inspired the current project;

### **PEOPLE'S VISION: REBUILD AMERICA**

Barbara's art is grounded in the belief that creativity can help us understand one another and our selves more deeply.
